## Developing skills beyond language competence

زانکۆی پۆلیتێکنیکي مه وازێر  
ERBIL POLYTECHNIC UNIVERSITY

Project No.101179468

# Our University Language Center

SERVICIO DE  
IDIOMAS  
UMU

## What we do:

### Teaching

- 8 languages, different kind of courses, depending on institution demands

### Language accreditation

- Different goals: international mobility, master programs access

## What for?

- What is learning a new language?
- What is speaking a different language?
- More than learning a new code?
- AI will do it!
- What we need language for?

## CEFR

*The **plurilingual vision** associated with the CEFR gives value to cultural and linguistic diversity at the level of the individual. It promotes the need for learners as “**social agents**” to draw on all their linguistic and cultural resources and experiences in order to fully participate in social and educational contexts, achieving mutual understanding, gaining access to knowledge and in turn, further developing their linguistic and cultural repertoire.*

## CEFR

*The **plurilingual vision** associated with the CEFR gives value to cultural and linguistic diversity at the level of the individual.
